

**17 October 2024**

*Deadline for Governments to commence enforcement of NIS2 Compliance*

# NIS2 Compliance Advisory

## NIS – NIS2

In response to escalating cyber threats, the EU Commission has advanced from the NIS to the NIS2 Directive, aiming to:

- Strengthening security requirements
- Addressing supply chain security
- Streamlining reporting obligations
- Introducing more stringent supervisory measures
- Implementing stricter enforcement requirements
- Harmonising sanctions across the EU.

## Key Changes

A key aspect of NIS2 for organisations is the specified reinforcement of noncompliance fines, for example:

- Important Entities (IE) face fines of at least 7 million euros or 1.4% of the total annual worldwide turnover from the previous financial year—whichever is higher.
- Essential Entities (EE) incur fines of at least 10 million euros or 2% of the total annual worldwide turnover from the previous financial year, whichever is higher.

## Why Ekco?

Ekco is one of Europe’s leading managed cloud service providers. We make it easier for you to innovate, scale, manage, troubleshoot and secure. With a network of over 300 dedicated security specialists, we have the skills and experience to support your entire cyber security lifecycle.

## Trusted Advisor

We can Manage all your Governance, Risk and Compliance Requirements. Ekco has the largest certified cyber security consultancy team in Ireland. We Pride ourselves in being your Trusted Cyber Security Advisors.

## Extended Expertise

Ekco’s Advisory team have extensive experience supporting our customers meet their regulatory standards. We have the knowledge and practical experience of all Cyber Frameworks (ISO27001, NIST, IEC 62443 etc).
